Prepared for

Quotation No.

Date / Validity

1. Project Summary

A complete, production-ready e-commerce platform for Raja Boot House — a premium leather footwear brand. Built on a modern, fast, SEO-optimised stack (Next.js App Router, MongoDB, Razorpay) and ready for deployment on Vercel with zero additional infrastructure cost.

This quotation covers the full platform already delivered plus the essential completion items required to make it legally and operationally ready to go live — all delivered same-day.

2. Features Delivered

A. Storefront & Catalog

- Product catalogue with size/colour variants, per-variant stock & images
- Filtering by category, brand, gender, occasion + full-text search
- Categories, brands, collections, banners, announcements
- Product detail pages with image gallery, share, recently-viewed
- SEO suite: server-rendered pages, JSON-LD, sitemap, robots rules
- Premium brand UI with smooth animations (mobile + desktop)

B. Cart, Checkout & Payments

- Server-synced shopping cart
- 3-step checkout (address - shipping - payment)
- Razorpay — UPI, Card, Net Banking, Wallet + Cash on Delivery
- Secure payment signature verification + webhook handling
- Server-side price re-computation (fraud-proof — client prices never trusted)
- Atomic stock deduction with rollback on failure
- Human-readable sequential order IDs (RBH-XXXXX)

C. Customer Accounts

- Email/password login (encrypted) + Google sign-in
- Forgot/reset password via email

- Profile management, multiple saved addresses
- Order history + invoice view
- Wishlist
- Loyalty points — 5% earned on delivery, redeemable at checkout

D. Orders & Fulfilment

- Full order lifecycle (Placed - Confirmed - Packed - Shipped - Out for Delivery - Delivered)
- Cancellation, return & refund states with status history & audit log
- Real Razorpay refunds to original payment method
- Customer self-cancel with automatic stock restoration

E. Marketing Tools

- Coupons (flat / percentage / free-shipping, min-cart, usage limits, validity)
- Flash sales (time-limited, percentage or flat discounts)
- Product reviews & ratings (verified-purchase, helpful votes, photos)
- Newsletter subscribe/unsubscribe
- Automated abandoned-cart recovery emails

F. Admin Panel

- Dashboard — live revenue, sales chart, top products, low-stock alerts
- Product / category / brand / collection management
- Bulk product import via CSV + CSV order export
- Order management, refund payouts export, printable shipping labels
- Coupons, flash sales, customers, reviews, CMS content, store settings
- Delivery-partner management + admin activity log

G. Vendor Portal

- Vendor dashboard, products, orders, payouts & settings

H. Infrastructure

- Image uploads via Vercel Blob (with local fallback)
- Transactional email (order confirmation, status updates, welcome)
- API rate-limiting, robust MongoDB Atlas connection handling
- Zero-config Vercel deployment

3. Commercials

Description	Amount (Rs.)
Full e-commerce platform — all features in Section 2	24,000
Essentials	6,000
TOTAL	Rs. 30,000

Tax: As applicable (GST extra if registered).

Payment terms: 50% advance, 50% on delivery / go-live.

Included

- Same-day delivery of all items above

- Basic handover walkthrough

Not Included (available as add-ons)

- SMS / WhatsApp transactional notifications (gateway charges extra)
- Courier API live-tracking integration (beyond static tracking link)
- Automated test suite
- Ongoing maintenance / AMC
- Third-party gateway, domain & hosting fees beyond Vercel free tier

5. Optional Future Add-Ons (Separate Quote)

- SMS/WhatsApp order & OTP notifications
- Live courier tracking + serviceability by pincode
- Back-in-stock & price-drop alerts
- Product Q&A, size guide, related-product recommendations
- Weight/zone-based shipping rate engine
- Analytics & conversion pixels (GA, Meta)
- Redis-backed rate limiting for scale
- Automated test coverage

This quotation is an estimate based on current scope. Any change in scope will be quoted separately. — Cosstech India
